**CHENEY FLASHING LEED CERTIFICATION LETTER**

To whom it may concern:

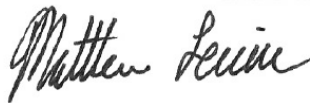

All copper products supplied by Cheney Flashing utilize recycled or recyclable material. The copper used by Cheney Flashing contains 75% recycled content of which 50% is post-consumer scrap.

Our copper originates from suppliers in the Eastern United States. The copper we have obtained for this job originates from Rome, NY. Cheney operates solely from its factory in Beltsville, MD, approximately ~400 miles from the point of origin.
